EXAMINER'S AMENDMENT

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with John Smith on June 27, 2006.

The application has been amended as follows:

claim 11 has been cancelled; and the limitation of claim 11 has been added to claim 10 as follows:

in claim 10 , after line 14, - - means to activate the lamps having predetermined colors in a predetermined sequencing pattern; - - has been inserted;

in claim 12, in line 1, "11" has been changed to - - 10 - - ; and

claims 17-20, ^{non-}electd without traverse, have been cancelled.

6/29/06

The following is an examiner's statement of reasons for allowance:

Figures 1 and 9A of Harth et al. (US2002/0128695) have most of the elements of claim 10 before the amendment above, therefore, the examiner discussed this issue with the attorney on June 27, 2006 as a 103 rejection in that it would have been obvious to modify the lamp arms of Figure 9A to the suggested alternative of Figure 1, making them adjustable in length. However, to overcome this rejection, the limitation of claim 11 was inserted in claim 10 as above. Harth et al. fail to disclose or suggest a means to

activate the lamps having predetermined colors in a predetermined sequencing. In addition no other prior art reference was found which teaches or suggests this limitation and a proper motivation to combine it with Harth et al.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
